

Stress is caused by not enough music.

Ah so that's it!!!

That's it... here all along I thought it might be a nervous reaction to everything that is going on in this old world!

You know that music has been around and pleasing people since way before there was just about anything on this old ball we're sailing around the sun on!

And there have been people listening to it, dancing to it and yes... even playing it for many, many centuries.

You know it is never too late to pick up an instrument and trying and working on getting some music out of it. There is even a brand new music store out in West Ajijic... go see what might catch your fancy (or old passion), maybe take some lessons or even get some friends together... when I was young they use to call them garage bands!

Have a great week and get yourself set for Hallowe'en!

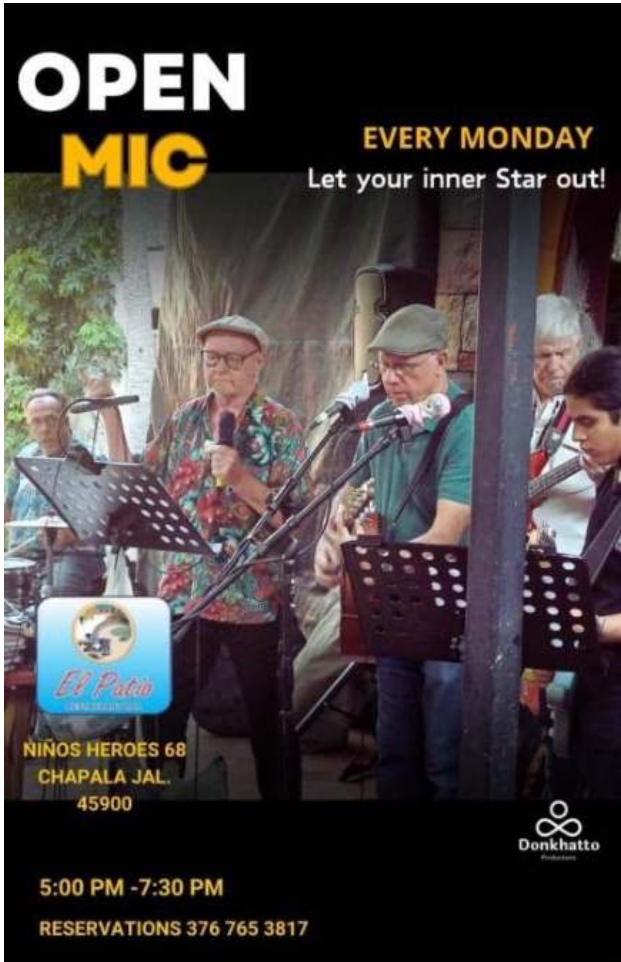

Francis
